By Lilly Kennedy

“Hi,” said Ben

“Are you excited to see Gravee?” asked Sam

“I Love how he has an accent, will they be meeting us at the airport?” Ben asked

\*\*\*\*\*

If you think Ses are just tiny versions of animals in real life you are wrong. They are pocket size animals. They do more than what you think. The Ses go to different places and explore them. The story you are about to read, the places are based on real destinations in the world. If you keep reading you will be impressed by what they can do.

At the airport Jaspa and the others are stuck at the bottom of the steps, they wonder how many people live in Sydney. There are 4,62.7 million, Jaspa Googled. That is a lot of people . When they try to get in or on the suitcases they just fall off or out. So they decided to go up the elevator. They finally got to the terminal where Ben and Sam were waiting.

“They are finally here!!!,” Said Gravee

“Hey Gravee!! I missed you!” said Sam

“I think we all missed you guys,” said Ben and Sam

“Hey can we go see the big banana?” asked Ben

“Well we have to go to Bondi Beach.” said Sam and the others

Jaspa said that they should go celebrate, on the way down they saw a McDonalds and decided to go eat. They bought chicken nuggets and fries but there got the order mixed up so they ate some fries while they waited. The Ses had some as well. Then when they were done, they went to the Australian Way. Which is a gift shop in Sydney’s airport. Ben picked a key chain for himself and Jaspa decided to get a ring but on him it was more like a necklace or a choker. Gravee thought that we should go see a kangaroo but Sam wanted to see a wallaby . They decided to just go to the hotel . On the way out of the airport they got stopped by a security guard, who told them they were not allowed to have their lotion and that they can go buy some

while they are in Australia. They thought that he was being mean because they didn't get it taken away from them in Germany

"We didn't get it taken away in Germany right?" said Ban

They headed towards the door and waited to take an Uber. When they get in they see that the seats are leather and Sam asked if they will see the big banana .

She said no I don't go that way . They finally get to hotel that Ben and Sam are staying at .

When they get in their room, they quickly realized they have left their passports in the Uber.

Gravee says "Hey Guys, I don't know if you noticed this I think the driver works at the Sea Life Aquarium. She was wearing the blue uniform and it's not that far from here,"

## Sea Life

When they get there they realize that the building was designed to look like a wave. It was done like that so it would complete the underwater look . They have to find the right spot because there a lot of different buildings, when they walk up to the door they see that people are taking photos of the posters at the front door. One poster said "did you know that 55% of people that come here are from overseas". They were greeted by a worker at the second door. She asked them if they want to go swimming with the sharks, and then informed them that most of the sharks weigh up to 300kg when fully grown. The Ses can learn from the shark, and explore with them.

"The sharks are scared of you remember that if they come close to you just tap them on the nose, that will make them turn back and leave you alone . You will be swimming with black tip, white tip reef, and grey reef sharks."

When they get there Jaspa freaks out.

" THIS IS A BAD IDEA" yells Jaspa.

"Do we have to go in there?" asks Portia

" Well, no you don't but you might not want to be out here by yourself." said Sam.

"Anyone can hear you or see you." said Ben

" Ok you have convinced us. It actually kinda looks cool" said Jaspa

" Those are bigger than I thought" said Portia

“To everyone the sharks are smaller because they are bigger than you and I” said Gravee

“I don’t want to do this” said Portia

“We have to be strong and show them we can do this” said Jaspa

“Ok, we are going to do this!” yells Jaspa

“If you get out we all will get out too” said Ben and Sam

“We are in! Oh it's not that bad” said Portia

“Is that a wobbegong shark?” said Jaspa

“Yes it is and guess what size this one is” said the instructor

“ I will say it’s 5ft” said Portia

“No it’s 4.1ft long” said the instructor

“Wow” said Jaspa

“If you head to Bondi Beach be careful. There are so many types of sea creatures in the water by Sydney like the blue bottles which are a type of jellyfish . They are not deadly but they do hurt when they sting.” advises the instructor

“I'm out of here!” said Gravee

When they get to where the person who has the passports was supposed to be, they got told she was going to Luna park.

“Hey let's go see if she is there!” said Portia

## **Luna Park**

“What is that?” asked Jaspa

“That's our destination” said Sam

Jaspa thought they were at a clown camp but it was just Luna park.

Luna park was only open in the summer and in the winter months they painted and fixed the rides. Every once in a while they would put more rides in but keep the most fun ones there. In 1979 the ghost train fire changed it all. Six kids were killed and a parent but they still kept the original slide ride, that has been around for as long as the first park was. The first park opened 1903. When they walk in, all they want to do is ride on the rides like Joy Wheel. The Joy Wheel is a ride that spins so fast that you get pulled off to the sides.

“Maybe after we find the girl who stole our passports,” said Sam

“Hey what's that ride?” said Jaspa

“That's the Wild Moose” said Sam

“Ooh I want to go on it “ said Jaspa

“No we have to find our passports” states Ben

The Wild Moose is an incredible roller coaster that you go around and you can see the ocean and the park.

So they carry on their way. Sooner or later they see her going on a ride with two young kids, so Ben and Sam go and line up to go on the Volare. The Ses stand on their shoes and hang on to their laces, but she sees them and tells the kids to cut in front of the line. Jaspa thinks it is going to be fun and all the others are scared that they are going to fall off. They find a seat they like but it is too far way. They know that they won't get off on time to catch her. Half way through the person in front of them throws up and they get it all over! Jaspa, Portia and Gravee are freaking out but they finally get off the ride. Now they have to get changed so they head towards the bathrooms. Which means they have to go out to the boardwalk.

They are on the lookout for her and her kids.

“Hey! There they are!” said Jaspa

They ran up to her and said hey you have our passports and the Luna Park security guard stood there and made sure she gave them back. She put up a fight but then security guard took her bag and found the passports.

“Is your name Ben ? No it seems to be the gentleman in front of you ” said the security guard

She gave the passports back and they were all so relieved, now they can finally go and enjoy the rides. Then they went and packed their bags to go on the next adventure . Hope you read my next story to see what happens.
